Intermediate Acrylic Class - Landscape

Qualifications for class:

Must have taken my beginner Acrylics Class OR have used acrylics enough to be comfortable with the fast dry, wet palette, have basic set of brushes and tools as well as a variety of 10 to 12 Acrylic "Heavy Body" paints plus black and white.

Experience:

Must have "basic" knowledge of drawing but by no means proficient at drawing. Student must be able to mix basic colors – proficiency in mixing is not required, also be comfortable in using this quicker drying medium.

Class Expectations:

This class will focus on painting landscapes, with instruction on creating depth, in a landscape painting. Instruction on painting Mountains, Water, Trees and Rocks will be the focus. This is a NON-stress Class and is a prep for advanced techniques in Glazing, Scrubbing, Scumbling and Dry Brush, to move images either forward or set back your painting.

Another "Main" distinguishing point of this class is learning to "uncomplicate" a scene – omitting, moving and simplifying a seemingly complicated-daunting view, and be able to understand what is needed to convey the scene and what is just extra stuff!
